

LINOTYPING DONE BY THE EDMONTON CAPITAL AT THE LOWEST RATES TO BE HAD ANYWHERE—SPECIMENS OF FONTS ON APPLICATION

"MISUNDERSTANDING" IS THE KEYNOTE OF ASQUITH'S EXPLANATION OF IRISH CRISIS

BULLETIN ROASTED
BY JUDGE TAYLOR;
ALSO THE JOURNAL

Court Severely Criticizes the Report of Frankie Blair.

STATEMENT MADE IS ENTIRELY INCORRECT

Real Reason Why the Woman Was Remanded for Sentence Until Wednesday.

Judge Taylor in the criminal court this morning severely criticized the report of the case of Frankie Blair heard Saturday, as published in the Journal. The Bulletin, and branded it as an absolute falsehood and said that the Bulletin was no better, and intimated that if they could not get the record and facts in the cases correct, they should get new court reporters.

The Journal, which produced the statement to cover the amount of her fraudulent debt, her sentence would be made much lighter than ordinarily. This statement is entirely incorrect, the fact being that the accused found guilty, but the court remanded her for sentence until Wednesday, in order that her counsel, Mr. Vallance, might have another opportunity to prove that the prisoner's \$2,000 was in the Bank at Miles City, Montana, as she claimed.

BUILDING PERMITS INCREASE; CONDITIONS STEADILY IMPROVE

The building permits issued from the office of the building inspector last week numbered 41 and reached the total of 450, a comparison with the last two weeks is as follows:

Week ending March 14th—
North side..... 28 \$6,920
South side..... 16 2,440

— Week ending March 21st—
North side..... 44 \$8,400
South side..... 13 3,800

41 \$9,560

Weather conditions have been so favorable during the past fortnight that building operations have been commenced in many sections of the city. Not only is superstructure work under way, but foundations are being made for new buildings. All indications now point to a very active season in the building trades this year.

WILSON ANXIOUS FOR EARLY VOTE REGARDING PANAMA CANAL TOLLS

Washington, March 22.—While Wilson has no doubts about the passage of the administration bill to repeat the Panama Canal tolls, he is anxious that it be brought to a vote promptly. He has been advised that the bill will be taken as soon as the Rivers and Harbors bill has been disposed of.

APPEAL OF FORMER CITY TREASURER OF CALGARY DISMISSED

(Special to the Capital)

Ottawa, Mar. 22.—The appeal of former City Treasurer M. N. Kelly, of Calgary, who was sentenced for embezzling a large sum of money has been dismissed in the supreme court here. R. B. Bennett, M.P., K.C., at the time sentence was passed in Calgary undertook to bring an appeal.

Third Feels Gratitude

London, March 22.—Lord Lansdale's gold watch, which bears his racing colors enamelled on the back, and which was recently stolen from him when he was last staying at home, has been recovered, having turned up unnoticed.

It was dropped into the letter box at his residence in Castlehouse terrace.

Lord Lansdale many times has helped to facilitate meetings of convicted persons, and there can be no doubt the watch was restored out of a feeling of gratitude by the thief, who was not aware of the identity of the owner of it when he stole it.

Forty-Eight Horses Burned

Fort Riley, Kan., March 22.—Forty-eight horses belonging to the Mounted Services school on the United States military reservation here were burned to death in a fire which destroyed the school stable today.

Blackburn Rovers Win

London, March 22.—First division football game today the leaders, Blackburn Rovers, disposed of Sunderland by three goals to one on their

ASKED TO HELP
DYING MAN SAW
IT WAS HUSBAND

William Secoy, Former Resident of Edmonton, Killed at Entwistle.

HEAD SMASHED TO PULP
BY LARGE FALLING TREE

Plucky Woman Puts Up Brave Fight for Life for Over An Hour.

Asked by a stranger to help him to take care of a man who was dying on a road near Entwistle, a woman named William Secoy, the wife of an Edmonton man, homeostatic in the neighborhood of Entwistle, rushed to the scene of the accident, which was a quarter of a mile from her house, when she discovered to her horror that it was her husband who was the victim. The injured man, was lying unconscious, his head practically smashed to pulp, and presenting a sight calculated to overcome even the strongest of nerves. The woman fell fainting beside the associate form of her mortally injured partner. Pulling herself together, however, on the realization that something must be done, she said to the man, "If the life was to be saved, she despatched her daughter for a doctor, and for over an hour stayed alone beside her husband and put up a plucky fight for life and resuscitation, but to no avail."

When the doctor arrived, the poor woman was lying in the snow beside the dead man, who had been struck down too much for her. It was not, however, until life was extinct that she gave up her plucky fight to save Secoy.

The deceased man had gone to his homestead in Edmonton for two years, and was well known in the city. He was a native of Valiere, Montana.

Witnesses State Krafchenko Seen in Town Before Murder.

SAW MAN AT LUNCH HEARD OF SHOOTING SOON AFTER

Sentence on Hagal and Westlake Not Passed for Some Time.

Morden, Man., March 23.—After the final adjournment, the trial of James Krafchenko, charged with murder of Bush Manager Arnold at Plum Coule on December 3 last, was resumed at this morning session. G. R. McTavish, the young man whom Krafchenko had shot, first told to Arnold immediately after the shooting, was up for brief cross-examination, and testified that he had much trouble in getting to the banks, as the uninjured blood vessels were cut. The witness said he saw Krafchenko two weeks before the shooting, but when he appeared he was in an anxious and worried state of mind, holding, in good health, to the table when the witness left the room. Ten minutes later Eshu heard of the murder of officers who resign.

He said he had orders to go to Ulster to serve in the army, but the labor members

asked, "How about strikes?"

The young affair, according to the accuser, had started when the man he saw the man at lunchtime at the hotel the man was still at the

table when the witness left the room. Ten minutes later Eshu heard of the

murder of officers who resign.

Sentences will probably not be passed for several days on Percy Hagel, and John Krafchenko, the son of James Krafchenko, who was released from custody. Justice Curran will not sentence the men at least until he has heard the application which he has filed for a writ of habeas corpus to him for a trial date set to the court of appeal. Justice Curran court sat half morning, proceeding with other business.

St. Petersburg, March 23.—Court martial against the Russian novelist, Maxim Gorky, on the charge of blasphemy, adjourned yesterday to a hearing with the defense.

The trial of a man, who is suffering from tuberculosis, declared by his friends to have been contracted in the course of his service in the fortresses of St. Petersburg and St. Paul, recently returned to Russia from Capri, after an absence lasting eight years.

The charge of blasphemy was presented against Gorky in 1908, in connection with his novel entitled "Mother," in which he is alleged to have insulted the national character of the district court of St. Petersburg.

Bylaws Aggregating Over \$4,000,000--Voted April 6

Two weeks from today the ratepayers will be asked to approve the many bylaws as passed by the city council some time ago, when the details were carefully considered and all unnecessary amounts struck off the lists. Still there remain 23 bylaws aggregating a total of \$4,460,112.34 which must be submitted to the ratepayers in addition to \$2,956,755.39 for local improvements which are due to be voted on April 6. This sum brings this year's capital expenditures up to \$7,456,867.73, all of which is urgent and cannot very well be omitted if the city is to keep step with the steady march toward progress along all other lines.

The list of bylaws which the ratepayers will be asked to approve are as follows:

Working capital fund	\$2,059,966.67
Discount on 1912-1913 debentures	175,120.60
1913 paving, 1912-1913	595,680.00
City's share paving of 1912-1913	153,529.00
City's share gradient, plank walks and boardwalks, 1912-1913	43,800.00
City's share concrete walks for 1913	10,220.00
City's share boulevarding, plank walks and grading, for 1913	22,360.00
Paving and concrete walks, 1914; city's share	245,280.00
City's share grading and plank walks for 1914	24,820.00
Central park extension	52,550.00
Additional for central police station site	21,820.00
Furnishing and furnishing central police station	1,470.00
Fire department, accessories and equipment	63,753.23
Street rail road extensions	5,840.00
Electric light and power additions	108,385.67
Telephone extensions and equipment	11,330.33
South side hospital extensions	61,220.00
Completion of stock pavilion	58,860.00
Pool improvements, swimming pools, hand stands, etc.	78,840.00
Swimming pool, 1914	121,180.00
Cemetery site in northeast end, 86 acres	56,613.34
Storage and warehouse yards	29,200.00
Completions to civic block and furnishings	28,713.33
Total	17,456,867.73

With a few exceptions, the lifetime of the debentures is 20 years, and the interest rate five per cent. The working capital will be spread over a term of 40 years.

The various amounts asked for the city's share of local improvements both for 1913 and past years result from the recent decision of the council to revert to the method of assessment of assessment which makes the city at large pay 20 per cent. of surface local improvements.

THIEVES SOAKED PROFESSOR IN OIL AND BURNED HIM

Naples, Mar. 23.—The Police believe that Prof. Giuseppe Mercalli director of the Vesuvius observatory, who was burned to death on March 19th was murdered.

A sum of \$1,400, which had been in his possession is missing. It is believed thieves broke into his residence, took the money strangled the professor saturated the body with oil and then set fire to it to conceal the crime.

Action Against Dr. Hartman

Under the direction of Dr. Hartman, a detective, Dr. Hartman is being tried in the supreme criminal court before Judge Taylor for having published an advertisement for a cure of certain diseases contrary to the criminal code of Canada.

Dr. Hartman is being prosecuted on the advice of Arthur G. Barton, a detective of this city and there are two indictments against him, one for each offence against the accused. The advertisement was published in the *Ruthenian paper* here. Dr. Hartman's place of business, 1005 Yonge street, where he sold numerous bottles of medicine, instruments, advertising bills and other articles. The case will be concluded this week. At G. A. McRae's, Kew, is defending the accused and E. Cogswell is acting for the crown.

JAPANESE DIET IS PROROGUED AND THE CABINET WILL QUIT

Tokio, Mar. 23.—The Japanese diet was prorogued to-day by the Emperor owing to the inability of the house of peers and the lords of representative to agree on the appropriations for the navy. The lower house had reduced the naval estimates by a considerable sum and the house of peers after long discussion held that the bill was not agreed to by the members of the house of representatives and a deadlock followed.

In political circles it is generally believed that the cabinet will resign.

Three Small Fires

Three calls have been recorded on the fire-hall slate since Saturday night. The first one was about 7:20 Saturday night, when the brigade was called to the Chinese restaurant, 672 Jasper avenue, where a small gas meter had boiled over on the floor and caught fire. No damage was done. The second call was received just about 8:30 Saturday night, at the Wash laundry on Second street. The blaze was caused by an overheated stove but was easily extinguished. The last call was received this morning to the front of Jasper and Fifth street, where a defective chimney caused a little blaze.

Charge is Withdrawn

The charge against Wong Chong, the Edmonton Chinaman who was arrested by the police on a charge of receiving, has been withdrawn. The reason for this was on account of there not being sufficient evidence to secure a conviction. Deputy Chief McRae of the Chinatown police force, who took the Chinaman into custody, said that Wong Chong, who is wanted on the same charge, H. H. Robertson, counsel for the accused has applied for a writ of habeas corpus on the ground that the Edmonton police had no right to arrest him in the first place. The hearing of this writ will take place Wednesday morning at 10 o'clock.

Mrs. Patterson Recovering.—It was stated at the hospital last evening that Mrs. Patterson, pastor of the First Baptist church, who has been seriously ill for several days, is improving.

Suffered Intense Agony With His Back.

Kidneys Were The Cause.

Weak back is caused by weak kidneys, and the first symptom or evidence of kidney trouble is Doan's Kidney Pill should be used, and serious trouble avoided.

Doan's Kidney Pills go right to the seat of trouble, cure the weak aching back, and prevent any further complications arising.

Mr. John Briggs, Whitewood, Sask., writes: "I am sending you this Doan's Kidney Pill, for you are evidently not a believer in patent medicines, but I got so round that I became quite unable to give anything a trial." I quite like Doan's Kidney Pill, the effect was certainly to the point of妙藥 (mǎo yào).

This is the world's best remedy for

anybody of whom I am aware, and I would not be without a box by me. I certainly owe my present condition to Doan's Kidney Pill."

Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Miltura Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

For 250,000 ems and over we cut 10c per 1000 off the above prices.

Customers are charged 12c per pound for metal, which amount will be refunded when the metal is returned, less 1c per pound for waste and deterioration.

CAPITAL TYPESETTING DEPT.,

J. HANNING, Manager.

Painful Swellings Reduced Muscular Strains Ended

Such Troubles Now Quickly
Rubber Away by Power-
ful Remedy.

If you have any muscles that are strained and weak, that are frequently subject to rheumatic pains; if you have any trouble with your joints, or if you have to go away—be bold with Nervilene. This is the very sort of trouble that Nervilene is noted for curing quickly. It never leaves you, it is simply a wonder in reducing hard painful swelling. It followed an injury I received in my left leg and caused me great pain and discomfort. This trouble was stopped and no other remedy gave the ease and comfort I got from rubbing on Nervilene. There is a soothing, pain-relieving, antiseptic, and antiflame action in Nervilene, it touches the root of the trouble, it destroys the pain, it brings my limp back to perfect condition." The experience of hundreds of thousands of users is that Nervilene is not unusual. Thousands are proving every day that muscular pain of every kind, chronic rheumatism, rheumatoid arthritis, and neuritis, will yield to Nervilene when nothing else can possibly cure. Nervilene is an old-time family pain remedy, used nearly 40 years with great success. The large family size bottle costs 50c, trial size 25c at all dealers.

Opening of Summer Hotels

The Canadian Pacific railway announces the opening of its summer hotels for the season as follows:

Now open: Mount Stephen house, Mount Stephen, Alta.; Hotel Macdonald, Mount Stephen, Alta.; Hotel Jasper, Jasper, Alta.; May 15, Banff Springs hotel, Banff, Alta.

June 1, Kootenay Lake hotel, Banff, Alta.; June 10, Chateau Lake Louise, Lake Louise (formerly Langan), Alta.; June 15, Algonquin hotel, St. Andrews, N.B.; and the Emerald Lake chalet, Field, B.C.

Vancouver Policemen's Opinion.—That a regularized district is the best way to administer justice over the long run was the opinion expressed by Deputy Chief McRae, of Vancouver, who is in the city at the present time. He said that the chief difficulty in his charge with attempting to procure, back to Vancouver, where he is wanted on a similar charge. The officer stated that the chief difficulty has been to make free from an actual crime of late and some notorious criminals have been brought to book by the police of that city.

Imposed Fine—J. P. Setter was fined \$200 on costs or three months this morning by Magistrate Massie. Setter, who has been held as the proprietor of a house of ill fame. The hearing of this case has occupied the attention of the police court since Friday afternoon and considerable interest has been displayed in this case by the public. The defense was conducted by J. A. MacKie.

Sentenced to Two Years

R. S. Chambers, alias R. S. Edwards, the man who was recently captured at Jasper, was sentenced to two years imprisonment for a writ of habeas corpus on the charge of being a fugitive from justice.

He was held as the proprietor of a house of ill fame. The hearing of this case has occupied the attention of the police court since Friday afternoon and considerable interest has been displayed in this case by the public. The defense was conducted by J. A. MacKie.

Children Dedicated to Library

C. Gillies, father of Alan Gillies, who was recently captured at Jasper, was sentenced to two years imprisonment for a writ of habeas corpus on the charge of being a fugitive from justice.

He was held as the proprietor of a house of ill fame. The hearing of this case has occupied the attention of the police court since Friday afternoon and considerable interest has been displayed in this case by the public. The defense was conducted by J. A. MacKie.

Canadian Literature

Bethune, Mar. 23.—In the celebration of the 100th anniversary of the Arts and Crafts movement in Canada, the Canadian Society of Authors, etc., presented a gift to the library of the University of Alberta.

The New Zealand trade reported

stated further that books had been taken on the vessel for an additional 100 carcases of beet, but that it was doubtful whether they would arrive in time.

Kids Are Dedicated to Library

Bethune, Mar. 23.—In the celebration of the 100th anniversary of the Arts and Crafts movement in Canada, the Canadian Society of Authors, etc., presented a gift to the library of the University of Alberta.

The gift consists of 100 volumes of children's literature, which were given to the library of the University of Alberta.

That the gift was made in memory of

the late Mr. George F. Z. Chaney, who

had been a member of the Arts and Crafts movement in Canada, was mentioned.

The gift was made in memory of

the late Mr. George F. Z. Chaney, who

had been a member of the Arts and Crafts movement in Canada, was mentioned.

W.M. MAGADAMS, EDITOR. W.R. WILSON, MANAGER.
EDMONTON DAILY CAPITAL
 OFFICE OF PUBLICATION—DAILY CAPITAL BLDG. 623-625 SECOND ST.

SUBSCRIPTION RATES:
 Daily, delivered by carrier in city \$4.00; by mail to outside points, by year \$3.00

For the convenience of our subscribers we have arranged with the following Hotels, Cigar Stores, Newspapers, Booksellers, etc., to receive payment in advance. All rates are subject to change at the discretion of the management.

Hotels: Cecil Hotel, Castle Hotel, Elbow Hotel, Hotel Dominion, Imperial Cigar Store, Central Cigar Store, Douglas Bookstore, Little's Bookstore, A.C. Smith's, First Street, Imperial Cigar Store, Yale Hotel, Corona Hotel, 227 Jasper West, Royal George Hotel, Ground News Stand, Grandard, Alberta, Hastings, St. Stephen's Landing, H.A. Smith & Co., Edmonton, Alta., Calafia Cigar Store, Edson, Alta.

CALGARY: Alberta Hotel.

Readers of the Capital are requested to favor the management by reporting any irregularities in delivery.

ASIATIC EXCLUSION;
 THE PROPER SOLUTION.

In the annual report of the department of the interior for the fiscal year ending March 31, 1913, the latest statistics available, it is set out that there arrived in Canada 7058 Chinese upon whom were collected capitation tax at the rate of \$500 each, aggregating \$3,549,242.

Chinese immigration in recent years has been increasing very rapidly. In 1886, when the tax was only \$50 per head, the total Chinese immigration was 211. In 1900 it had increased to 4,231, but in the following year the head tax was increased to \$100, when the immigration fell off to 2,518. From this point it continued to increase again until in 1903 it had reached 5,245, but in the following year the tax was again increased to \$500 per head, when the immigration fell off so far that there were only eight arrivals during the whole year. Next year there were 22, the next 91. The third year of the \$500 tax there were 1,482 Chinese arrivals and from this point it has been climbing steadily until in the last year for which there are statistics all records were broken with the arrival of 7,078 Chinese on the Pacific Coast who paid the head tax, besides some 367 who entered as students or returning tourists, who did not pay the tax.

From these statistics it is very clearly evident that even with the \$500 head tax, the danger of a yellow inundation is very real. Reduced to dollars and cents, the statistics must be taken to mean that the time has arrived when there is a difference between the wages paid to whites and those paid to Chinese sufficient to make it profitable to pay the \$500 in advance in order to get the Chinaman at Chinese wages. And this being so, the Chinaman is being brought in in wholesale numbers.

Recently the Chinaman, whose previous range on this continent has not extended much beyond the Pacific Coast, has commenced to go back into the mountains and is gradually insinuating himself into Alberta. What will result when there are three transcontinentals instead of one, each with their corresponding link to Asiatic ports anxious for the profits of the steerable traffic, remains to be seen.

Of the \$3,549,242 collected as capitation tax last year, one half went to the Dominion government and one half to the province of British Columbia. No matter what their destination, no other province gets any part to this tax.

Admitting, as all do who have given the problem thought, that the Asiatic immigrant is a liability rather than an asset, Alberta is compelled, by this arrangement, to bear without recompense whatever share of this liability is thrust upon her by the arrival of Orientals in this province.

Herein lies a great injustice perpetrated against the province of Alberta, and one which is likely to become much more onerous in the next few years than it has been in the past.

The solution is absolute Asiatic exclusion.

BULL MOOSERS WISH A
 PERPLEXITY ONTO NEW YORK

While it is quite the fashion for old line party newspapers in United States to declare that the progressive movement has blown up and the Bull Moose party is dead, it is interesting to note that in the Herrick-Schapp bill, now before the New York legislature, the progressives have furnished an issue which has startled New York out of its indifference and made evident the fact that the progressives are by no means decadent.

The Herrick-Schapp bill provides for a referendum in New York city upon the proposal to assess buildings at one half the value of land. Sitting here in Edmonton, where only land is assessed and where with almost complete unanimity public opinion endorses this system, the New York proposal looks mild enough. But when one takes into consideration the enormous interests involved in New York real holdings and the difference it would make to some of the largest fortunes in United States were the municipal taxation of New York to be shifted to land alone, it is possible to appreciate the strenuousness with which these interests would fight any proposal to disturb the system which levies as heavily upon buildings as upon land.

The progressive party may be slightly in the eclipse since their Teddy went away; but they have wished onto New York a question which will keep the Bull Moose in the lime light for some little time and which will not be settled until buildings are relieved of every dollar of taxes.

THE GOVERNMENT'S ATTITUDE
 COMPLETELY DEFINED

As an epitomizer Lloyd George has all the scribes and most of the phrase-makers beaten and grabbing for the ropes. When the crucial moment arrives and it requires the expression of his party's attitude in a single sentence, the little Welshman is invariably the party who gives utterance to the slogan which conveys the policy in capsul form. The laws of England, he said, made the people of England "trespassers in the land of their birth," and the obvious truth of which made further explanation of the necessity for reform superfluous.

Now comes the Irish question, with Carson throwing pyrotechnic fits and Bonar Law talking sedition, conspiracy and rebellion right within the precincts of the House of Commons where the empire's laws are made. To which Lloyd George gives answer that: "Liberalism will not flinch one inch before the arrogant and insolent plague of Toryism."

This may be taken as the government's attitude, completely defined.

CORRESPONDENCE

(The publishers of the Edmonton Capital again feel it necessary to explain that they take no responsibility for the views in letters sent to the editor. Letters will not be published unless names and address are given for publication.)

EDMONTON CHORAL UNION.

To the Editor of the Capital: It would be enough to allow me space to draw attention to those who are possessed of good voices; and the advantage that they would gain by associating themselves with the Edmonton Choral Union. We have now drawn our second session to a close, but only to prepare for more aggressive work in the fall. The Edmonton Choral Union is attempting to bring the city to bring up a large body of singers upon a strictly musical basis; and on best business lines, or democratic lines if that word is understood its true meaning—as every member has equal rights.

Edmonton Choral Union is also looking for other musical bodies in the city; indeed, it is our most cherished ideal to be of assistance to any body that has in view the advancement of the arts and sciences. We have practical proof of the sincerity of our motives on several occasions during our brief existence.

It is in every community a large amount of floating talent, unattached; that is to say, the circles and those Edmonton Choral Union extends to a horizon which is yet to be found and thus finds opportunity for exercising their talent, in an organized form. The object of all choral unions is to stimulate the love of music and to keep it in the public eye. It has been found necessary adjuant to healthy civic life in every land; as no art has done more than music to refine the tone and elevate the mind and emotions.

Our prospective work for the coming season will be two concerts of part songs, and on New Year's day a rehearsal of the Mass. The Mass will be held at the Sacred Heart Church, 25c per person, or five boxes for \$1.00, at all drugist and stationers, or by mail from the Cattaraugus Co., Buffalo, N.Y., and Kingston, Canada.

TODAY'S BIRTHDAY PARTY

CARDINAL BOURNE, Head of English Catholics, is 53.

Francis Cardinal Bourne, archbishop of Westminster and head of the Roman Catholic church in Britain, was born at Clapham, London, three years ago today, March 23, 1861. The only Englishman who now wears a papal tiara, he was elected to the Sacred College in 1891. He is one of the youngest members of the Roman church parliament, being one of the eight cardinals who are under the age of 60.

Cardinal Bourne will celebrate this year the thirtieth anniversary of his ordination as a priest. He was educated at Stonyhurst and at Oscott seminary, in Liverpool, St. Sulpice in Paris, and entered the priesthood in 1881. He first came into prominence when he was appointed domestic prelate to his holiness Leo XIII. In 1886 he was made titular bishop of Epiphania and was appointed auxiliary bishop of Southwark succeeding to the bishopric in 1887. At Southwark his work for the church was of such a character as to attract the attention of the church authorities. In 1893 and 1895 he was elevated to the high post of Archbishop of Westminster, succeeded Cardinal Vaughan.

Alfred Muller, who is the leader of the Roman Catholic organization of Irish home rule, was born three years ago today. The Viscount, who has had a distinguished career as a constitutional politician, recently joined with Lord Roberts, Buxton Kipling, Lord Balfour of Burleigh and other eminent Englishmen in a public demonstration in support of the cause justified in case the Irish home rule bill becomes a law without being first submitted to the judgment of the nation. "Any man or authority any time may be compelled to yield to the assembly," he said. "The assembly was unlawful," added his lordship, and he (Bald) was certainly right, obeyed the judges as they were only out a quarter of an hour before bringing in their verdict. Sentence was deferred.

James H. Baird, 22 years old, the first of the Negroes to be tried in connection with the Boston race riot August, has been found guilty at New Westminster of "unlawful assembly." Mr. Justice Morrison, in addressing the jury, said: "I am satisfied beyond a shadow of a doubt that he was guilty." The assembly was proved up to the hill.

"The assembly was unlawful," added his lordship, and he (Bald) was certainly right, obeyed the judges as they were only out a quarter of an hour before bringing in their verdict. Sentence was deferred.

Weak, Tired Folks
 Given New Vigor

Strength Returns, Health Re-newed, Vitality of Youth Re-created.

Exhaustion and Bodily Tiredness Every Day Being Turned Into Energy and Ambition by Dr. Hamilton's Pills.

From Chequene Pl., N.S., comes the following from Mrs. W. A. Rey: "Not long ago my husband, a fisherman, became very weak, lost appetite, became nervous and sleepless. My weight ran down, I became thin, hollow-cheeked and had black rings under my eyes. I was ready to die. The charm of his life was gone. I was in the 'tubes.' I read of Dr. Hamilton's Pills and got five boxes.

Within a month my appetite and color were good. I gained strength and felt like a new woman. New life and vigor returned, and my friends scarcely knew me. I am now well again.

Good health means much to you. Success and happiness depend upon it. The maintenance and security of your home depends upon it. Health is important in business.

TODAY IN DOMINION HISTORY

SIR GEORGE ARTHUR was appointed governor of Upper Canada 25 years ago today. The new Lieutenant-governor succeeded Sir Francis Bond Head. He found the province still in a turbulent condition, following the Mackenzie insurrection of the previous year, and threatened with an invasion by the rebels who were still gathered along the international frontier. The rebels had organized and established what they called Hunter's lodges, in several American cities, and large bodies of men were organized and driven back but the country on a desultory guerilla warfare that was a source of worry to the Lieutenant-governor. This year was finally and forever quelled by Sir George's administration. When Lieutenant and Matthews, two of the rebels leaders, were tried and sentenced to death, they were immediately popular heroes. Sir George granted the parole of both the rebels and the rebellion.

On this date in 1865 the British parliament granted 50,000 pounds for the defence of Canada against the threatened invasion of the Fenians. The Fenians had invaded the country in 1866, and were driven out by General Bruce. The Fenians had been led by James F. D. Mann, the distinguished Canadian soldier of railways and founder of empires, who was born at Acton, Ont., sixty-one years ago today. His youth was spent on a farm in the bush, and he received his early education in rural schools and the hard school experience. Early in life the lure of the west called him, and he shouldered an ax and went west to conquer the wilderness. After a few years as a lumberman, he became a contractor for the Canadian Pacific, then built through Manitoba. It was during this period that he met Mackenzie, and the two soon "hit it off" together and joined forces in what was destined to be one of the most successful partnerships ever formed. After building roads for Mackenzie and Mann determined to become railroad magnates and built railroads on their own account. They bought the Grand Trunk, the Canadian Pacific, and the Canadian National, and the latter two soon "hit it off" together and joined forces in what was destined to be one of the most successful partnerships ever formed. After building roads for Mackenzie and Mann determined to become railroad magnates and built railroads on their own account. They bought the Grand Trunk, the Canadian Pacific, and the Canadian National, and the latter two soon "hit it off" together and joined forces in what was destined to be one of the most successful partnerships ever formed. GREAT DESERT REGION IN SUDAN TO BE RECLAIMED

Lands Will Be Used to Increase Cotton Output of British Empire.

REMARKABLE SCHEME TO SAVE CATHEDRAL

It's Proposed to Water Subsoil Under Foundations of St. Paul's, London

London, March 23.—Work has been commenced on an unusual great scheme to rechristen the dry, desolate tracts of land in the Sudan. It is believed that can be made to add enormously to the cotton output of the British empire.

The tract which is to be watered is known as the Giza territory, it lies between the Blue and White Niles, below Khartoum and above El Obeid. The flow and the force of the two rivers is sufficient to water the entire district when properly harnessed.

The proposal is that the force of the water flowing into Egypt should be diverted into the Sudan.

At present the blue Nile comes down in a raging flow, and the White Nile, flowing in shallow fashion, contributes little to the water supply.

The building of the two dams will enable the flow to be properly regulated and will practically mean the final harnessing of the Nile.

A baron of England who has been considering the preservation of St. Paul's cathedral is discussing a remarkable scheme. The idea is the immersion of the foundations in a huge tank of water.

Expert builders have found that the sand and gravel in which the cathedral stands is both damp and unsuitable for a dry foundation, and owing to the plateau formation on the summit of which the foundations rest, there is a tendency for the foundations to spread and to receive the greater part of the weight.

St. Paul's has been pulled down together by the natural moisture filtering through from the surface, contributing to the ultimate of the damage.

In order to stop the encroaching of water, the substitution of concrete for timber public road and the surface drainage system have deprived the cathedral of its natural moisture.

Other cases are cited in the London district, where similar injury has been caused to buildings by the drainage of the soil in which the foundations stand.

To preserve St. Paul's it is proposed to renew the subsoil and thereby set up a new concrete base around the entire cathedral. A vast cistern would have to be constructed below the surface. Those proposing the scheme suggest that the London cathedral may be used as a dry floating, or a floating cathedral.

This container would isolate the whole of the cathedral site and into it would be poured water at intervals through perforated pipes, sunk vertically into the subsoil.

KING AND QUEEN ON INSPECTION VISIT TO WORKMEN'S HOUSE

"London, March 23.—I have come to inspect the cottages and flat built for my son. May the queen and I come

With this simple question, King George, accompanied by Queen Mary, on Saturday, visited the workmen's house, erected on the Prince of Wales' estate, one of the outermost of the urban districts of London, where his majesty is cleaning up. The visit was productive of several amusing incidents. Queen Mary was a "real fine lady." Another woman tried to hide a bottle of stout ready on the table for the king's lunch, but the royal visitors laughed.

"I am anxious to make provision for the lower middle classes," said the king in his cottage with a tenement of one.

"I am also anxious for the welfare of the working classes, but in London I must change first to the upper classes."

Queen Mary was a "real fine lady."

Another woman tried to hide a bottle of stout ready on the table for the king's lunch, but the royal visitors laughed.

"Will Marry a Canadian."

Boston, Mass., March 23.—Former Governor and Mrs. Eugene N. Foss have announced the engagement of their daughter, Esther, to Albert Hickman, of Canada. Miss Foss has recently returned with her twin sister, Helen, from study Europe. Mr. Hickman, a graduate of Harvard, is an author and lecturer, and has been living in England as an agent of the Canadian government. He competed for the diamond sculls at Henley in 1904.

Trial Smelter Receipts.

St. Louis, March 23.—Ore receipts at Trail Smelter last week totalled 5,794 tons, making a total for the year to date 75,907 tons.

ALBERTA MINING SHOWS SUBSTANTIAL INCREASE FOR YEAR

Although Alberta has experienced exceptionally mild weather during the fall and winter just past, 85,997 tons of coal were mined more than the previous year, a total of 4,406,346 tons.

The figure is brought out in the annual report of the mines branch of the provincial department of mines, works, and seismics to indicate that the coal is not used or used for industrial purposes to a greater extent than last year, or both.

The amount of coal exported according to the report is about one million tons, and it is expected that this export trade will increase greatly, with the opening of new mines in the province, especially in Saskatchewan.

Following is the classification of all the coal mined during the year:

Lignite 1,763,225
Bituminous 2,374,401
Anthracite 165,720
Used in coke production 1,421
Coke produced 53,167
Brigittes produced 130,661

The coal market, which was fair in the early part of the year, was generally unsatisfactory, was complicated on March 25, 1913, by another piece of legislation known as the miners' bill, which is being very controversial.

The coal output of the province since it was formed in 1905 is as follows by year: 1905, 811,225; 1906, 1,356,900; 1907, 1,822,220; 1908, 2,626,371; 1909, 2,634,564; 1910, 3,446,339; 1911, 4,036,811. The increase in 1913 over 1912 was 24.5 per cent.

Following are the particulars of coal mined during 1913:

Number of mines in operation 288
Number of tons of coal mined 4,306,546
Number of tons of coke produced 65,167
Number of tons of briquettes produced 130,861
Persons employed inside mines during December 6,616
Persons employed outside mines during December 2,253

Trout Tonight.

Dr. H. B. Smith, president of the Edmonton Young Men's Christian association will address the Y. M. C. A. League tonight at 7:35 in the lecture room of the association, taking for his subject "A Personal System." All men are invited.

LONDON MAY FOLLOW LEEDS EXPERIMENT IN CITY GOVERNMENT

London, March 23.—Leeds is making an experiment in municipal administration, the English city having a number of Canadian and American cities, under the name of "commission government." The innovation at Leeds has followed recent strikes among municipal employees, involving in which showed a lack of coordination in labor matters between the various municipal departments and the local trades unions, resulting in employment as a sort of political spoil. Municipal administration in Leeds will henceforth be concentrated in the hands of a small commission, which can have more responsibility than is possible in the case of a large city council.

If the Yorkshire city's experiment is successful, it is possible that other English towns will follow suit and go the length of enacting a general charter.

A salary of \$60,000, is a large wage, and the experiment is aimed at men who undoubtedly would be able to make a huge reduction in the expenses entailed by the present system of government in the metropolis.

To preserve St. Paul's it is proposed to renew the subsoil and thereby set up a new concrete base around the entire cathedral.

A vast cistern would have to be constructed below the surface.

Those proposing the scheme suggest that the London cathedral may be used as a dry floating, or a floating cathedral.

This container would isolate the whole of the cathedral site and into it would be poured water at intervals through perforated pipes, sunk vertically into the subsoil.

Mrs. Lehmann, University Campus, tomorrow, Tuesday, will entertain the members of the Junta society of the University at a luncheon at her home.

The Ladies' Aid of Ersie Preddy, Canadian author, will have a tea at the home of Mrs. D. S. Currie, 124 Carey street, on Tuesday afternoon, March 24, and on Friday, March 27, there will be a tea at the home of Mrs. J. C. McNaughton, 11945 Fifth Street, Westmount. All women of the church and their friends are cordially invited; strangers will be especially welcomed. *

Mrs. D. J. McNaughton was hostess at a bright little luncheon on Saturday, March 21, at the home of Mrs. J. C. McNaughton, guest of honor being Miss Hickey, Vancouver, Mrs. McNaughton's guest. The attractive luncheon table was centered by a large silver bowl containing roses, while at each guest's plate the dainty favor was a bunch of English violets. The guests included Miss Hickey, Mrs. McNaughton, Mrs. McNaughton, Mrs. Phyllis Barnard, Miss Eleanor Taylor, Miss Forsythe, Miss Snowdon, Mrs. Marriott and Mrs. McNaughton.

In the afternoon a score of guests dined in for a chat and a cup of tea with Mrs. McNaughton. *

Mr. Allan Hartman, formerly of Montreal, who for sometime has been bacteriologist to his majesty the King of Spain, has joined the faculty of the University of Alberta. Dr. Hartman is now in charge of the Norman Baskerville Clinic, and is expected in Canada shortly from the east. *

Fred L. Harris, of Edmonton, was in town this week on one of his periodical business trips—Vancouver Observer.

The Ome-Mee Chapter of the Daughters of the Empire are planning to have a tea on Wednesday, April 8, at the home of Mrs. J. C. McNaughton. Besides serving tea, the ladies of the chapter will also sell flowers and plants; the proceeds of the tea to be used in aid of the chapter. After the tea on April 11, the members of the chapter have planned to sell flowers on the street. *

Sup't. Boomer of the C.N.R. and Mr. Boyd local Manager of the Imperial Oil Co. were Athabasca Landing visitors last week. *

Mrs. E. H. Garrison, 152 Fifth Street, will receive on Wednesday next for the last time this season.

Mrs. P. D. Walker and daughter of Athabasca Landing are visitors in Edmonton.

Judge Crawford was an Athabasca Landing visitor last week on business.

WOMEN'S MUSICAL CLUB.

The Edmonton equal Franchise League will hold a public meeting tomorrow evening at 8 p.m. in the Strathcona public library. There will be two speakers. Prof. Alexander, president of the league will speak on certain phases of the equal franchise movement exists in Edmonton and the Province of Alberta, and Mr. W. D. Turner, whose experience in the state of Washington, is showing the struggle for the franchise for women to be of value and interest here.

Mr. McCammon and Mr. Chandler left last week for a trip to Peace River Crossing.

Mr. Kerr, surveyor for the railway commission is leaving Edmonton soon to inspect the new line at Grouard.

Mr. W. Stuart, manager of the Royal Bank at Grouard is an Edmonton visitor.

Mrs. P. F. Canniff of the Highlands received a wire this morning stating her mother is seriously ill. Mrs. Canniff left this afternoon for Belvedere, Ontario.

Mr. Frank Flanagan was called to Toronto Friday by the serious illness of his brother.

Rev. and Mrs. C. A. Myers, who have been spending a week in Edmonton, returned to their home on Saturday morning last.

The stage in Canada has left by the hands of the Highlanders Methodists in the Old First Presbyterian church last week proved successful beyond the hopes of the ladies, according to the reports which were contained in the news paper on Saturday morning last.

The stage in Canada has left by the hands of the Highlanders Methodists in the Old First Presbyterian church last week proved successful beyond the hopes of the ladies, according to the reports which were contained in the news paper on Saturday morning last.

Alpine Club Banquet.

The Edmonton branch of the Alpine Club are preparing to hold a banquet at the Hudson's Bay 28th instant.

When the annual meeting of the Alpine Club, Mr. A. C. Brewster, president, will be held at which the officers for the ensuing season would be elected.

By resolution it was decided to ask Mr. Brewster to repeat his program next season.

"Madame X," which the Lyceum players produced at the Lyceum the previous week, was the most successful success of all time ever given at that theater. Audiences larger than any seen here this season greeted the company which presented the Alpine Club play with enthusiasm.

Manager Aylesworth may repeat the French drama in view of the numerous requests he has had for it.

"East Lynne" is a favorite on two continents and will be given at the Lyceum this week, with a fine company of principals. The usual Wednesday and Saturday matinees will be given.

UNIVERSITY ATHLETIC DINNER GREAT SUCCESS: PRESENTATION OF CUPS, LETTERS AND PRIZES

Athletes to the Number of 400 Enjoyed Second Annual Event.
Athletic Success Appreciated by President Tory—Varsity
Will Have New Athletic Field.

The second annual athletic dinner of the Alberta University was held Saturday night at 8 o'clock in the spacious dining room of that institution. About 100 young men sat down to tables which were gaily decorated in various colors and methods of most elaborate menu of good eats. Many beautiful bouquets of daffodils, tulips and green foliage, helped to carry out the theme. The pieces were gold, silver and bronze, each one a copy of the letter. The singing of God Save the King concluded a splendid evening's program followed by a rousing variety "Yell."

Dinner over, a number of toasts were proposed and responded to by many prominent members of the sports and athletics. The first toast, "The King," was proposed by R. C. Jackson, toast-master of the evening and president of the university athletic association who made some interesting remarks in respect to athletics, and asked everyone to join in singing the national anthem.

In Praise of Sport

The toast to the toast, "Our Alma Mater," proposed by H. J. Nolan, and expressed his delight at the arrival of the university students of sports in the university had attained, and was particularly pleased with the performances of the hockey team during the past season. He also said the players had proved their worth to all the students and freshmen. "The student interests are very dear to the hearts of the men who have in hand the guiding of the student body," he said. "The students of the other houses of the university were always in favor of athletics. They believed that sports tended to be the best good feeling among the men and women there, to help them to live and see things as a unit and believed a healthy general good feeling existed among the students of Alberta university than was the case elsewhere."

Help the "Also-Rans"

D. D. Matherell proposed "Athletics" and this toast was ably responded to by J. V. McLean, president of the M. G. C. A. Mr. Ward urged the men who had been so successful in their sports, the real champions, to get in touch with and encourage the men who are not successful in their sports, the second-raters, and help them along.

Will Have Athletic Field

Professor T. C. Moorehead, reporting to the toast "Sports," outlined for next year the university would have a first-class athletic field, with a quarter-mile track, and playing fields for all the sports, excepting football, which will be adjacent to the dormitory buildings and the contract for the work has already been let. This toast was proposed by Mr. Chapman.

Allan Cup Next Year

The toast to "Hockey" was ably handled by Jimmie Bill and R. H. M. Hunter, and the toast to "Football" was the most among first rank of all sports, saying it was the fastest, most interesting and most exciting game played. He believed that to be a sure road to success in football, hard training and physical fitness was required than in any other branch of sport, and looked forward to the time when a few years hence when the Alberta team would be calm and serene within the walls of Alberta university.

Are Soccer Champions

President G. M. Sherratt spoke the toast "Soccer" and boasted of the splendid showing the university had made in that sport. Soccer was the first game started in the fall and it did not last long, but the players were really successful in winning the soccer championship from Saskatchewan university, and hoped this year to enter a team in the Charity Cup.

"The world was won over when the men who blazed the way in university sports and that in years to come they would be thanked for having got the ball rolling."

Athletics Are Honored

Presentation of cups and A's was made by Dr. Tory to a large number of athletes who had brought home many trophies or who had won some sport or another. L. R. Mattern proposed the toast "Basketball," which was responded to by Mr. E. E. Wood, who related the success with which that game had met this past season, and stated that the varsity team was now in line for the senior league championship.

"Fergie" a Real Ladies Man

The toast to "The Ladies" was most nobly proposed by S. C. Ferguson, who

mencing at 8:30 sharp.

GEO. CARPENTIER OUTPOINTED BY JOE JEANETTE

American Negro Heavyweight
Has Shade Over French-
man.

Paris, March 23.—Joe Jeanette, the American negro heavyweight, won the contest against Georges Carpenter, the French champion, in a 15-round bout, Saturday night. The contest took place at Luna Park, which was crowded.

Jeanette had the advantage at the start of the contest, and in the early rounds, which were marked by continuous fighting, Carpenter put up a determined fight several rounds ended in his favor.

The American who had a trifle more weight than his opponent, landed a number of punches, but Carpenter stayed on the ropes, and as it appeared at the end of the fifth that Jeanette had been the more aggressive the referee awarded him the decision.

SPORTOGRAPHY

"Cactus" Cravath, Great
Philly Swatter, 32 Today

California begins with a "C," which
helps to identify the state which
serves to introduce the names of Califor-
nia's three greatest baseball play-
ers—Chance, Cravath and Cravath. There

have been many other major league

players from California, but these

three seem to be the edge. Of the trio,

Cravath, the greatest and outfielder of

the great negro and outfielder of

the great negro team, and when all is said and done, they are.

Every man on the High school team is

a hard worker in the game, and from

what appears the league champion-

ships look good to them.

The High school team will play the

Medical and Alberta on Sat-

urday next, and will likely be op-

ened to meet the Left-overs for

the championship of the intermediate division.

What a great sweep it would be if

the negro's game is 38 to 6, and for

the balance of the game it was High school

all the way. The winning team was

in a hard way in the game, and from

what appears the league champion-

ships look good to them.

day, New York 14 to 6.

Phillies Didn't Play

Wilmington, Del., Mar. 23.—Talm

Swanson, president of the Wilmington na-

tional team, prevented the fans from

watching the Baltimore Internationals. The

team left here for Philadelphia.

Connie Mack Called Home

Jacksonville Fla., Mar. 23.—Connie

Mack, manager of the Philadelphia At-

lantic League team, was called home

to Philadelphia by the illness of

his daughter who underwent an opera-

tion for appendicitis.

New York Americans Win

Houston, Tex., Mar. 23.—By defeating

the Houston league team 10 to 9 Sat-

urday the New York Americans

were the winners of the \$14,000, and got

mighty good bargains.

In 1912 the GoodYear company sent

to the Negroes a number of tires, and

from that time on the Negroes

had a trifle more to live on.

It is almost unbelievable, yet true,"

says F. A. Henderson, head of the Goodyear adjusting department, when

he was asked what the Negroes

nearly never think of giving their

full attention. Yet the tires, made of

cotton fabric and rubber, are sup-

erior to any tire ever made.

PRINCE RUPERT MAKING HISTORY

Expected That About \$6,000,000 of Buildings Erected This Season.

AWAITING TRAIN SERVICE
Completion of G.T.P. Will See Big Influx of People to Rising City.

(Spoken to the Capital.)

Prince Rupert, B.C., March 23.—A tremendous influx of people to this city and district is anticipated upon the opening of the G. T. P. which is expected to take place early next month. Given this year for Prince Rupert, and it is expected that about \$6,000,000 worth of building will be done there probably an unprecedented amount for any city of its size and age in history.

A city official states that the town will satisfy the world that year and give the following figures of buildings already known to be contemplated:

Provincial government building, \$100,000; Post office building, \$100,000; Grand Trunk hotel, \$2,000,000; Armoury, \$100,000; Dry goods, \$1,750,000; Commercial skating rink, \$100,000; City hydro-electric plant, \$300,000; Section Two bridge, \$100,000.

Apartment houses and private residences, \$100,000.

In addition to this is the mountain road work and numerous private enterprises which have not yet been named. The G. T. P. will be the chief of these stay permanent in this area other places on the railway, and others to the south country.

Our correspondent in Vancouver has been here to knock at every opportunity, and that they were urged not to come here at all. However, they were glad their campaign was not neglected, and their efforts should be commended. It would not be long before one could come to Prince Rupert direct from Edmonton without touching at Vancouver.

Mr. V. V. Vaneau, wholesalester they will ship via Prince Rupert to points in central British Columbia, including Prince George, to compete with Edmontons' business. They are also wondering why Prince Rupert itself cannot take a hand in this trade, and it is believed that the real fight will be between Edmonton and Prince Rupert.

IN POLICE COURT

F. Bullock and E. Smith were both fined \$20 and costs for being found in a tavern, holding a card game, and failing to receive a pension from the U.S. A. government, was sentenced to ten days at the prison farm, on a charge of vagrancy.

L. Horne, the young lady who was arrested last night by Constable Allen because she was allowed off on suspended sentence. She stated that she had made a wager with a friend that she would dress as a man and walk along Jasper Avenue. She was given a fine of \$10 and sentence his worship stated that the offense was punishable by a term of five years, however, as it was the first time and she did not realize the seriousness of her act, he would let her go on suspended sentence.

MANY FINE ENTRIES
FOR COMMERCIAL
CLASSES AT SHOW

The benefits according to the city as a result of the lively interest being taken in the competitions for the commercial classes must be overlooked. Better horses, clean harness and more modern vehicles must follow in the wake of all such exhibits as will be seen shortly at the exhibition grounds.

The commercial classes incorporated in the prize list for the spring horse show are in the ideal condition of high standard in both horse and outfit.

Local business firms utilizing delivery horses have not slow to recognize the value of the competition, and the competition is bound to result in the betterment of the delivery horses of Edmonton no class.

Two entries in the competition for the best driving horses were shown in the competition to be held Saturday evening.

Chorus, (a) "At Dawn" (Cadmian) (b) "The Swallows" (Coven—Miss Estelle J. Carey).

Organ Solo, March from Tambourine (Mrs. V. W. T. Tamm) (b) Quartette, "The Cavalier" (Bishop—Mrs. McLean, Miss Constance Duck, Mrs. Herbert Chadwick and N. D. MacFadyen).

Organ Solo, "Chant Seraphique" (Miss Estelle J. Carey).

Organ Solo, "Winged Victory" (Barbara S. Bishop—Miss Estelle J. Carey).

Organ Solo, "Good Night Good Night" (Barbara Pirie—Miss McLean, Miss Buck, Mrs. Herbert Chadwick and MacFadyen).

Organ Solo, Andante in G with Variations (Mr. W. V. Tamm) (b) Quartette, "Gunninga" (Miss Heribert Wild) (Song, "Gunninga" Miss Estelle J. Carey).

Chorus, "Song of the Vikings" (Eaton Fanring—The McDougal Choir).

The members of the citizens band delighted huge audiences at the concert given in the Bijou theater last night. Indeed the program taken as a whole can be said to have been a success, though the local bands in the city for some considerable time at both performances all in attendance were enthusiastic over the excellent numbers rendered by the band.

Mr. Richard's organ was particularly good. There are wonderful possibilities in the tune selection for instrumentalists, and the chances were taken from the piano to the organ.

C. A. Richardson's "Will O' the Wisp" was probably one of the most enjoyed items. To sing Cherry's wonderful song a soloist needs a voice of range and power, and when he gave it the great expression is needed.

In Mr. Richard's home of these essentials were missing. He has a particularly pleasant voice and a good nose.

His organ playing is wonderfully good, his range exceptional and his expression almost perfect. The band selection (Mr. MacFadyen) was excellent, and the entertainment under the direction of Bandmaster Shanks the organization is steadily improving, and it is to be expected that further better opportunities than in this fine selection.

Student attention to detail was pain, and all the fine points of the piece were brought out to a nice point.

The Gilbert and Sullivan selection for next Sunday's concert. This is one of Sullivan's most beautiful works, the ensemble movements being very effective on a military band arrangement.

GENERAL CONTRACTOR'S ASSOCIATION

A meeting of the General Contractor's Association will be held in the bulldars exchange tonight at eight o'clock. All contractors interested in organization are invited to attend.

Liquor License Ordinance

Application has been made by McCafferty and Son, Ltd., for a license to sell liquor.
